

I listen to KLove on FM translator 106.7. I understand that a new broadcast service LPFM may take priority over my current FM translator service, therefore taking KLove off the air. I am extremely concerned and upset about this proposal. KLove is listened to by many people that I know and it is very much needed and wanted in this area. The positive, encouraging message in music that is sent out over the air is depended upon daily by many people. Please do not allow KLove to be taken off the air by this new service(LPFM). Thank You for you time on this matter!
